

Benefits:

- ◆ Highly effective disinfectant
- ◆ pH adjustment/modifier to optimum 6 - 6.5 range
- ◆ Reliable, safe, and can be automated
- ◆ Beneficial to bird gut health
- ◆ More effective than bleach (chlorine) alone
- ◆ We offer Farm to Fork Service, Supplies and Solutions
- ◆ In-house water quality analysis
- ◆ Custom recommendations for the chemistry and the equipment
- ◆ Local delivery, service and support

Before and after treatment:

WARNING

Contaminated water and poor quality water is dangerous, can spread diseases and can seriously impact your bottom line!

Protect your birds from bacteria, viruses and biofilm.

AgriHawk HOCI+ and the AgriHawk Rapid Mix System is a highly-effective disinfectant and pH modifier. It's a safe, dependable way to disinfect poultry drinking water – and it's more effective than bleach (chlorine) alone.

AgriHawk HOCI+ & The AgriHawk Rapid Mix System

Better Water = Healthy Birds

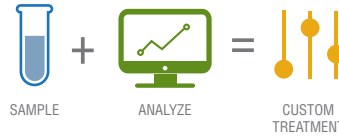

Celebrating 80 years of serving our customers
www.hawkinsinc.com

AgriHawk HOCl+ and the AgriHawk Rapid Mix System

– proven to improve water quality, disinfection and animal production.

- Hawkins comes to your location to help solve site specific problems.
- Hawkins' products have been designed and made exclusively for the poultry industry.
- These products were designed in coordination with some of the major U.S. poultry producers.
- The AgriHawk Rapid Mix System is a site-specific, chemical feed system that is customized to your location(s).

Sample + Analyze = Custom treatment designed specifically for your farm

Treatment recommendations are verified by our WatSim program. WatSim (Water Simulation) laboratory analysis provides a more complete picture of problems and potential problems confronting a water treater. You'll get a custom water disinfection program based on the WatSim source water profile. This includes:

- A specific, customized solution to ensure that an accurate water treatment is applied
- Hawkins will install the right equipment and provide the proper chemicals
- Hawkins will provide support and assistance with field adjustments to dial in proper pH and disinfection levels

Delivering the quality service you can depend on:

- Quality service matters and makes a difference. Hawkins comes directly to growers and services their barns.
- We understand the importance of biosecurity protocols and take precautions.
- Hawkins services hundreds of poultry barns with weekly deliveries.

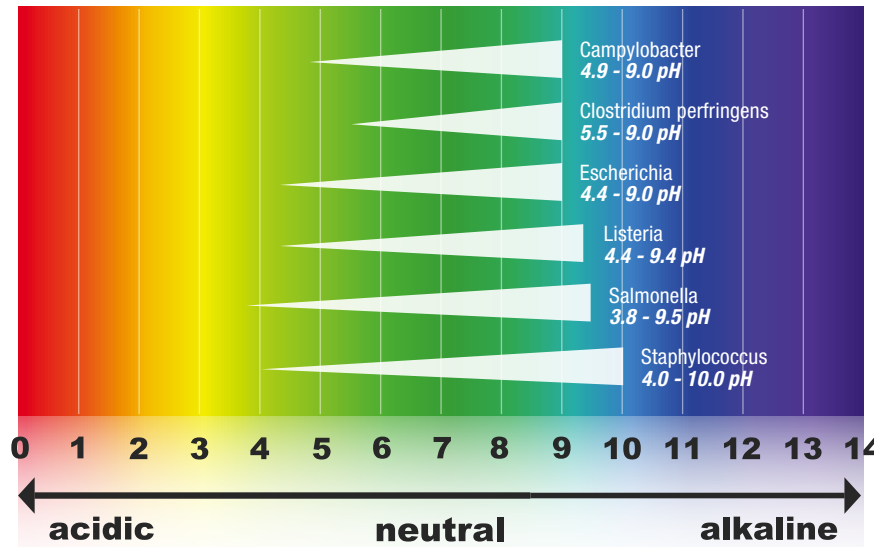

EQUIPMENT

- Full line of new chemical injection pumps
- Assorted plumbing parts for installation
- Various new chemical metering and measurement units and sight-glasses
- Assorted sizes of bulk chemical storage tanks
- Control and monitoring systems
- Safety equipment
- Testing equipment
- Spill containment systems

pH scale

Low to High growth rates are represented by the triangle shape.
