Innovation and Specialized Service by Industry Experts for Your Individualized Treatment Program

Lead and copper corrosion is a growing regulatory concern. At Hawkins we can analyze your water and make a treatment recommendation based on your water's corrosion potential.

Hawkins manufactures products for corrosion control in municipal water systems. These products are manufactured to combat corrosion based on your specific water characteristics.

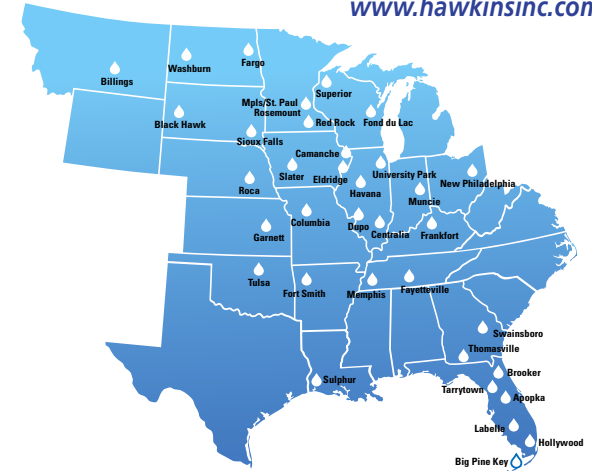

- ◆ Zinc Orthophosphates
- ◆ Polyphosphates
- ◆ Poly/Orthophosphates
- ◆ Orthophosphates
- ◆ Silicates

Treatment recommendations are verified by our WatSim program. WatSim (Water Simulation) laboratory analysis provides a more complete picture of problems and potential problems confronting a water system.
