

Emergency Valve Shutoff System

Hexacon Model III Controller

Bulletin: 902.06

The Hexacon System allows for the control and operation of up to six Eclipse actuators.

Features

- Electronically Closes Valves - Approx. 3/4 sec!
- Fits Standard Valve Configurations
- OLED System Information Display
- Operator can Open / Close valve manually
- Allows Multiple Remote Switches
- Microprocessor Controlled
- Fault Error Diagnostic System
- Battery Operated (3 days after AC failure)
- Torque in ft. lbs: Emergency - 50, Test - 30
- Entire System NEMA-4X
- 3-Way Over Torque Protection
- 3 Year Warranty

Available Options

- RS232 Serial Port Output to SCADA
- Programmable Relay Interface Module
- Second Battery System
- Annual Preventative Maintenance Program

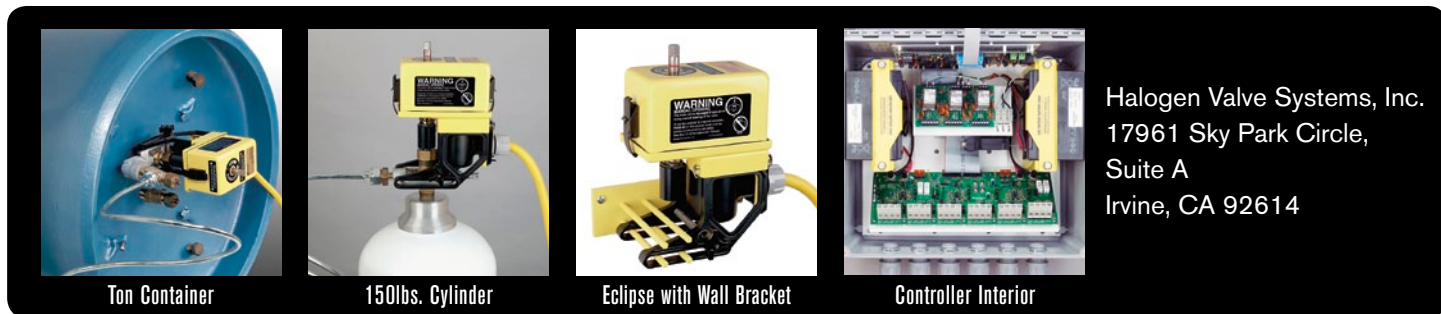

Applications:

Water Treatment Facilities
 Wastewater Treatment Facilities
 Hazardous Gas Use Facilities

During an emergency closure, the Hexacon Model III will close up to 6 Eclipse actuators sequentially. The Hexacon Model III meets all Fire Code requirements.

Remote Operation

Shutoff a leak without having to enter a toxic environment by means of remote switches: gas detector, kill or panic button, SCADA system, fire or seismic alarm, etc.
