

EQUIPMENT

- Full line of new chemical injection pumps
- Assorted plumbing parts for installation
- Various new chemical metering and measurement units and sight-glasses
- Assorted sizes of bulk chemical storage tanks
- Control and monitoring systems
- Safety equipment
- Testing equipment
- Spill containment systems
- Chlorination control systems
- Mixers
- Calibration chambers
- Chemical feed equipment
- Pool controllers

Protect your patrons, your pool and your reputation from:

- ✓ Harmful bacteria
- ✓ Viruses
- ✓ Algae
- ✓ Biofilm
- ✓ Pathogens

Pool Water Treatment Chemicals:

- Algaecides
- Anti-Foams
- Bleach
- Calcium Chloride
- Calcium Hypochlorite
- Caustic Soda
- Chlorine
- Clarification Aids
- Clearitas® 401
- Coagulant Aids
- Corrosion Control
- Diatomaceous Earth
- Filter Aid
- HTH
- Hydrochloric Acid
- Iron Stabilization
- pH Control
- Shock Treatments
- Soda Ash
- Sodium Bicarbonate
- Sodium Bisulfate Liquid
- Sodium Bisulfate Granular
- Sodium Hydroxide
- Sodium Hypochlorite
- Stain and Scale Remediation
- Sulfuric Acid
- Test Kits and Reagents
- Trisodium Phosphate
- Specialty Chemicals

Hawkins manufactures the Sodium Hypochlorite we distribute. This ensures you get the freshest most effective product available. Mini-bulk and pre-packaged options are available.

Keep your pool water safe, clean and clear

Keeping your pool free from harmful bacteria, viruses, algae and other pathogens requires intelligent practices and effective products.

Hawkins can supply you with the necessary products and chemical feed equipment to keep your pool up and running.

We have certified pool operators on staff to help you with water chemistry and general troubleshooting.

Proper water treatment is also critical in preventing a wide range of potential pool water problems including scale and stain formation, colored or cloudy water and corrosion of valuable equipment.

Hawkins has a full assortment of products that can help solve your water issues.

Improving chemistry for safe, clean water

Specialized Service

Hawkins Technical Sales Representatives are well trained in setting up, maintaining and troubleshooting water treatment programs for municipal swimming pools.

Your Hawkins Representative can:

- ◆ Ensure that metering pumps are accurate
- ◆ Calibrate chemical feed scales
- ◆ Help you optimize chemical feed systems
- ◆ Optimize pool chemistry levels

This frees up more time for you to focus on other critical tasks.

pH Down LO

An Innovative pH Control

Why swimming pool pH is so critical!

Proper pool pH helps keep pool water safe and sanitary. High alkaline water reduces the effectiveness of chlorine, allowing pathogens to thrive in pool water. Maintaining the proper pH with **pH Down LO** can help:

- ✓ Prevent corrosion and scaling issues
- ✓ Eliminate cloudy water
- ✓ Improve chlorine effectiveness
- ✓ Reduce skin rashes on swimmers
- ✓ Protect equipment like heat pumps and other expensive components from damage
- ✓ Keep the water sparkling clean

pH Down LO

A safer option! Our innovative, proprietary formula for lowering pH with lower fumes.

- A safer option for pH control
- Our proprietary muriatic acid formula
- Low and non-fuming acids available
